**A special way to remember someone who has just passed away, fingerprint pendants or jewellery to wear next to your heart for ever.**

It is never easy to go through a bereavement sometimes it helps to have an item personalised by the person you have just lost. Taking an impression of your loved one is very easy and will often be done by the undertaker if you ask them. I will despatch an easy to use fingerprint kit which you can take to them and on receipt of this I will make your order. As time is even more critical in these situations the best way to proceed is by phoning me on 07714 206484 and I will send the kit by first class post.
